

SQL – Quick Review

No.	Concept	Query
1	Display specific columns in result	List building name, status, and quality level.
2	Display all columns in result	List all information about employees
3	Derived columns	What is the weekly pay rate (40 hour work week) for each electrician?
	Restricting rows	
	Using alias	
4	Functions	a. What are the highest and lowest pay rates?
		b. What is the average number of days that employees are assigned to building 4?
		c. What is the average weekly rate for all employees?
		d. How many buildings have quality level 3?
		e. If each employee worked 50 hours a week, what would be the total weekly payroll amount?
5	Wildcards	a. List all employees whose skill begins with “Elec”.
		b. List all employees who have the letter “l” or “o” as the second character in their skill.
6	Comparison Operators	a. List employees whose pay rate is less than \$40.
		b. List buildings that do not have a quality level of 3.
7	Boolean Operators	List all electricians and framers who make more than \$37.
8	Ranges	List employees who have a pay rate between \$35 and \$40.
9	Distinct	List unique building numbers from the assignment table
10	In and Not In	List the plumbers, roofers, and framers
11	Sort	List employees alphabetically by skill, and alphabetically by name within each skill.
12	Group By Having	a. For each type of building, what is the average quality level?
		b. For each type of building, what is the average quality level for buildings of status 1? Consider only those types of buildings having a maximum quality level no higher than 3.
13	Insertion	a. Employee 3 has been assigned to start work on building 2 on 2/25/2019. Add this data to the Assignment table.

		b. Create a new table called OfficeBuilding. Add all Office buildings to this table.
14	Deletion	Delete all Office buildings from Building.
15	Update	Give painters a 5 percent pay rate increase.
16	Natural/Inner join	a. List employee names and their assignment information (BuildingFK, StartDate and NumDays).
		b. List the employees assigned to office buildings.
17	Subquery (uncorrelated)	List the employees assigned to office buildings.
18	Self-Join	List the names of employees and the names of their supervisors.
19	Union	List the names and pay rates of the employees who have the highest or lowest pay rates.
20	Intersect	Which buildings are office buildings and have employee 3 assigned to them?
21	Subquery (Correlated)	List those employees who are assigned to more than 50 days of work.
22	Exists and Not Exists	Which office buildings do not have employee 1 assigned to them?
