

PHP – Common Files

File	Concepts Covered
dbConnExec.php	Methods to connect to and execute queries on the database
siteCommon.php	Methods to generate common header and footer for site
stylesCommon.css	style sheet

PHP – Demo 3 Files

File	Concepts Covered
d3sql.php	Methods to retrieve data
d3film1.php	Displays data retrieved from a DB
d3film2.php	Displays data in a table – output prepared with html tags embedded within PHP code
d3film2alt1.php	Another way to prepare output – a mix of Html tags and PHP code
d3film2alt2.php	One more way to prepare output - heredoc syntax
d3film3.php	Display hyperlinks with URL parameter value set dynamically
d3film3_1.php	Uses URL parameter value to display dynamic content

Please Note: The path to the common files (for example, see the `require_once` statement in `d3film1.php`), assumes that these files are in the parent folder of the folder that contains the demo 3 files.
